Summary

Front-End Developer with experience building responsive, interactive, and user-friendly web applications using modern web technologies. Skilled in transforming UI/UX designs into pixel-perfect, accessible, and high-performance websites. Strong attention to detail with a focus on clean code practices, responsive design, and component-based architecture. Passionate about continuous learning and delivering high-quality digital experiences across all devices.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Bootstrap, Tailwind CSS, Vite

Languages & Databases: C++, C#, Python, SQL Server, MySQL

Tools & Concepts: Git, GitHub, VS Code, Figma, Adobe Photoshop, REST APIs, DOM Manipulation, Local Storage, Responsive Web Design

EXPERIENCE

Front-End Developer

Nov 2025 – Jun 2026

Team: *Thanya* [🔗](#)

- Engineered a comprehensive healthcare and emergency response platform tailored for patients and paramedics using React.js, TypeScript, and Tailwind CSS.
- Developed a dynamic user dashboard for managing medical records, emergency contacts, file attachments (PDFs, scans), and tracking real-time IoT medical device data (vitals and location).
- Implemented a specialized read-only paramedic scanning interface for rapid medical access and an SOS emergency management system with live notification tracking.
- Built a fully functional e-commerce store with cart management and integrated Stripe payment gateway for secure checkout simulations.
- Collaborated effectively within a cross-functional team, converting complex UI/UX designs into reusable, scalable, and pixel-perfect React components while meeting strict project deadlines.

PROJECTS

Personal Portfolio | *React.js, JavaScript, CSS3, Vite* [🔗](#)

- Designed and developed a modern personal portfolio from scratch to showcase technical and design skills.
- Built responsive layouts optimized for desktop, tablet, and mobile devices, featuring interactive project showcases and a smooth user experience.

Pharogate | *React.js, JavaScript, CSS3* [🔗](#)

- Developed a highly responsive web platform dedicated to Ancient Egyptian history and heritage tourism.
- Created reusable React components and optimized page performance to ensure a seamless, mobile-first user experience.

Smart Login & CRUD System | *HTML5, CSS3, JavaScript, Bootstrap* [🔗](#)

- Built a secure authentication system with form validation, error handling, and smooth page transitions.
- Managed client-side state and data persistence using browser Local Storage to handle user registration, secure login experiences, and inventory management.

EDUCATION

Bachelor of Computer Engineering

Sep 2021 – Jun 2026

BHI-47 (GPA: 3.241)

Bihera, Egypt

RELEVANT COURSEWORK

Data Structures, OOP, Algorithms Analysis, Database Management, System Programming, Computer Architecture, Microprocessors.
